

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Sandra Hagerman
DOCKET NO.: 05-25255.001-R-1
PARCEL NO.: 32-04-103-031-0000

The parties of record before the Property Tax Appeal Board are Sandra Hagerman, the appellant, by attorney Rusty A. Payton and the Cook County Board of Review.

The subject property consists of a 43-year-old, one-story style single-family dwelling of masonry construction containing 1,259 square feet of living area and located in Bloom Township, Cook County. Amenities include one full bath, one half-bath, a full basement, air conditioning and a two-car garage.

The appellant, through counsel, presented evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing three suggested comparable properties located in the same coded assessment neighborhood as the subject. These properties consist of one-story style single-family dwellings of masonry or frame construction 40 or 41 years old. The comparable dwellings contain one or two full baths, and half baths; additionally one has a basement and air conditioning. The comparables range in size from 1,425 to 1,514 square feet of living area and have improvement assessments ranging from \$5.94 to \$6.44 per square foot of living area. A copy of the subject's 2005 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$11,029, or \$8.76 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing three suggested comparable properties located in the

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	3,864
IMPR.:	\$	10,000
TOTAL:	\$	13,864

Subject only to the State multiplier as applicable.

same coded assessment neighborhood as the subject. The comparables consist of one-story style single-family dwellings of masonry construction. The comparables contain one full bath, basements, air conditioning and have garages. These properties range from 36 to 40 years old; range in size from 1,156 to 1,162 square feet of living area and have improvement assessments ranging from \$8.77 to \$9.05 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Property Tax Appeal Board finds that the parties submitted seven properties as comparable to the subject. The Board finds that when compared to the subject all of the properties bear similarities to the subject in age, amenities and location. The Board finds that these properties have improvement assessments ranging from \$5.94 to \$9.05 per square foot of living area. While the subject's per square foot assessment falls within the range of the properties contained in the record, accepted assessment theory suggests that as building size increases the value per square foot decreases, all other things being equal. In the instant cause, after considering adjustments and the differences, particularly in size, of the parties' comparables, the Board finds the subject's per square foot improvement assessment is not supported by the properties in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
